

Bad Credit Bank Accounts

[Bad credit bank accounts](#) are designed specifically for people who have bad credit and are unable to get a bank account at their High Street bank.

Bank accounts for people with bad credit are actually very easy to open and can be opened online. So, no need to be told by some snooty bank clerk that you can't have a bank account.

It's easy to open a bad credit bank account using the link below and everything can be done online. As soon as your bank account is set up you can use it just like any regular bank account. You can have your salary paid in to it directly and you can set up your direct debits and standing

orders too.

And as an added bonus, these bank accounts also come with a debit card which is linked directly to your bank account. With your debit card you can use it to withdraw your money from cash machines, pay for goods in shops and shop online.

Just because you have bad credit doesn't mean you can't have a bank account like everyone else.

It doesn't matter how bad your credit rating is, you are 100% guaranteed to be accepted for this bank account. Even if you are currently bankrupt or have an IVA or CCJ's and Defaults, it doesn't matter because you WILL be able to open this bank account.
